Everywhere

IS JUST A MINUTE OR TWO AWAY

—Even though you may not have the time, or the inclination to travel, you can always make a personal call by telephone —without leaving your office. Your party is *"only a minute or two away"*

By BELL TELEPHONE

—When a trip is imperative, telephone ahead, locate your party, tell him you're coming, and when. It saves time and often prevents a wasted trip.

Be Sure—By Telephone

Indiana Bell Telephone Company

Emmet Hill S. Walsh.

Information About Telephone Service

426 W. 2d. Warfield — Kocks

Observance of the Following Suggestions Is Essential to Good Service

HOW TO USE THE SERVICE

Use the Directory. Trying to remember numbers results in mistakes and delays.

Spell Out all Numbers, one figure at a time. For Main 1375, say "Main-one-three-seven-five."

Speak Distinctly in a moderate tone of voice directly into the transmitter with the lips close to the mouthpiece.

Answer Your Bell Promptly. Do not make your patrons and friends wait unnecessarily.

Do not remove the receiver while the bell is ringing; it may interfere with the signals.

To Recall the Operator, move the hook slowly and continuously up and down. Rapid motions will not operate the signals.

Call "Information" for names not listed.

Call "Chief Operator" to report unsatisfactory handling of your calls.

Call "Repair Clerk" when your telephone is out of order.

Visit Our Plant and see it in operation. Visitors are welcome at the Exchange any week day between 9 a. m. and 5 p. m. A card of admission will be furnished at the office of the Manager.

GENERAL INFORMATION

Directory. The Company assumes no liability whatever for damages arising from directory errors or omissions. The utmost care is used, however, in listing all subscribers correctly.

Moves. If you desire your service transferred, please arrange at the Contract Department for service at your new location. Ten days' advance notice should be given.

Names of Non-Subscribers. Members of the same firm, or family, who are not subscribers to telephone service, may, with the consent of the subscriber, have their names listed in the Directory. A moderate charge is made for such extra listings.

The Company's Regulations provide that no instrument or appliance not furnished by the Company shall be attached to or used in connection with its instruments or lines.

Telephone Numbers. All telephone numbers are the property of the Company. As it is sometimes necessary to change subscribers' numbers, the Company reserves the right of cancelling or changing any number at any time.

Directory Advertising. For information as to space and rates call "Manager's Office."

Profane and Obscene Language is against the law and will not be tolerated over the lines of this Company, and the right is reserved to remove, without notice, the telephone of any subscriber violating this rule.

Indiana Bell Telephone Company

The services of the Telephone Company's engineers are at the disposal of those contemplating building construction. For advice as to conduit for telephone requirements, Call The Manager.

GENERAL OFFICES
Telephone Building, 256 North Meridian St., Indianapolis, Ind.

LONG DISTANCE CALLS

Ask the operator for "Long Distance" when you wish to make a Long Distance Call.

When "Long Distance" answers give her your telephone number and details of the call, stating which of the following classes of calls you wish to make:

STATION-TO-STATION CALL (When you will talk to anyone at the telephone called.)

PERSON-TO-PERSON CALL (When you want to talk to a particular person.)

APPOINTMENT CALL (When you want to talk to a particular person at a specified time.)

MESSENGER CALL (When it is necessary to send a messenger to summon the particular person called.)

Long distance rates are based on distance, the class of call and the length of the conversation. When conversation extends beyond the specified initial period, an extra charge will be made. A Station-to-Station call requires much less of the operators time and of the use of the toll wires than does a Person-to-Person call and for this reason a considerably lower rate is charged. The Appointment call rate is higher than the Person-to-Person call rate because of the extra amount of work involved. The Messenger Rate is the same as the Appointment rate plus any charge for messenger service.

A REPORT CHARGE is made on a Person-to-Person call, an Appointment call or a Messenger Call when the particular person called is not in or will not talk, when an exact telephone address of the particular person desired has not been given and he cannot be reached at a telephone or any other cause of failure due to no fault of the telephone company. NO REPORT CHARGE will be made on reports of telephones not listed, telephones temporarily or permanently disconnected, or reports on calls which are cancelled because the parties involved have already talked. This charge is made to cover a part of the expense of the operators time and the use of the toll wires in our efforts to complete the call.

If desired a messenger will be sent, at your expense, to summon to the telephone any person who cannot be reached by telephone. Messenger charges incurred are to be paid even if the desired conversation is not held.

"REVERSED CHARGES". Charges will be billed to the telephone called on "Person-to-Person," "Appointment" or "Messenger" calls, (but not on "Station-to-Station" calls,) if you request this when placing your call and the person agrees to pay the charges.

"PERSON-TO-PERSON" Rate The "Person-to-Person" rate is computed on the day rate between the points involved, whether the call is made during the day or during the night and the minimum charge is fifteen cents.

No "person-to-person" call is accepted where the "station-to-station" rate is less than ten cents.

The "APPOINTMENT" and "MESSENGER" rates are computed on the day rate between the points involved, whether the call is made during the day or during the night, and the minimum charge is twenty cents.

No "Appointment" or "Messenger" call is accepted where the "Station-to-Station" rate is less than ten cents.

TO OBTAIN THE RATE TO ANY PLACE CALL "LONG DISTANCE."

If you wish to be advised of the charges on a message at the close of a conversation, notify "Long Distance" when you place your call.

STANDARD TOLL NIGHT RATES

The following reduced rates for night service on a "STATION-TO-STATION" BASIS only are effective:

8:30 TO 12 MIDNIGHT, about one half of the "Station-to-Station" day rate.

12:00 MIDNIGHT to 4:30 A.M. about one fourth of the "Station-to-Station" day rate.

These reduced rates do not apply on Person-to-Person, Appointment or Messenger calls, nor on any call on which charges are "Reversed."

For the purpose of applying night rates, the time of day at the point at which a "Station-to-Station" message originates, is used.

The minimum night rate is twenty five cents. Day rates apply on calls made at night when the "Station-to-Station" charge is less than the minimum night rate.

Do You Need More Telephone Facilities?

Your telephone is overworked when the great amount of traffic over the line keeps it constantly busy.

This may prevent many customers from reaching you. If allowed to continue, it is bound to hurt your business.

You cannot afford to have your telephone always busy, but you can afford an additional line or two. The cost is small.

The Mailman Can Save You a Trip to the Telephone Office

You can save a trip to our Business Office by mailing a check to pay your telephone bill.

By mailing us a check, you also avoid the possibility of waiting in line at the window. The large number of patrons who come to the office at the same time each month sometimes makes it difficult to serve all of them promptly.

When paying by mail, be sure to attach the stub of the bill to your check in order to assure credit being given to the proper account. The cancelled check is your receipt.

We endeaver to conduct our business in a way that will be of the greatest service to our patrons.

Refer to the Directory before Making a Call

Do not depend upon your memory for Telephone Numbers. It is easy to get figures transposed.

Use of the Directory Prevents Wrong Connections

Service Beyond Price

The ears of the people are within your call; their voices are within your hearing. From near neighbor to distant cities and villages, millions of slender highways made alive by speech converge within the small compass of your telephone.

Telephone service cannot be estimated by usual values. Imagine how complete a revision of our methods of living and working would have to be made if the telephone ceased to operate.

Disasters, both personal and to whole communities, are daily prevented by the telephone. And this guardianship is a part of its ceaseless service.

Glad tidings are forever streaming over the telephone The meeting of national crises, the accomplishment of vast business undertakings, the harmonizing of a nation's activities; these compose a portion of the telephone service which is beyond price.

But the miracle of the telephone is realized in the emergency when it is so vital to health, happiness and success as to put its value beyond price.

Always be Sure of the Number

There are two ways to call a telephone number. The wrong way is to call from memory; to "take a chance," to trust to luck that your memory doesn't play a trick on you, with the fickle figures in a telephone number.

The right way is to consult the Telephone Directory and make sure you have the right number. The right way saves annoyance to yourself and to the persons you might have called by mistake. It helps build up a higher grade of service for yourself and others.

Always Consult the Telephone Directory

Make Sure You Call the Right Number
